

Survey Form

Create an Event.

Attach a Survey form to event. Form needs both multiple choice and input field.

When someone is checked in/out at the Event, they are automatically sent the survey. Once they answer the survey the system generates and emails them their certificate. The form can be designed different for each event or can be selected from existing form created.

Data to store against each event for the number for survey forms submitted.

Report to display data submitted.

Event Name	Date	Online/Offline	Event Registrations	Survey Data
ABC	10-05-2024	Online	10	5

Clicking on Event Registrations will display data of users registered for event.

Participant Name	Email	Phone Number	Event Name	Survey Data
